

## Thank You!

Thank you so much for trusting me to capture your business portraits! I'm truly honored you chose me for this process.

---

## About Your Files

You'll find your photos in three types of file names:

- ① **PRINT** — These are full-size files, ready for printing and enlarging.
  - ② **WEB** — Small-sized files, perfect for your phone or sharing online. (Not recommended for printing.)
  - ③ **PNG** — Web-sized files with the background removed — just your subject, ready to layer onto other digital designs. (if it applies)
- 

## Important Reminders

✅ **Backup your photos!** Please save them in at least two locations (like an external drive and cloud storage) to keep them safe long term.

! **All sales are final.** Because this is a digital product, it's non-returnable.  
If you'd like to purchase additional photos, just contact me — I'm happy to help with options!

---

## Your Commercial Use License

You have purchased a **Commercial Use License** — here's what that means:

✓ You **may**:

- Make digital copies, share and print reproductions
- Use photos on social media, websites, and marketing materials
- Use images for event demonstrations, internal or external business use
- Use photos in any business activity or project meant to generate profit

✗ You **may NOT**:

- Transfer, sell, lease, or license the image rights to anyone else
- Give or sell the reproduction rights to a third party

✓ You **may**:

- Crop, edit, manipulate, reconfigure, animate, or create derivative works from the images — feel free to creatively adjust them for your needs!

---

### Printing Info

If you choose to print your images elsewhere, please know I **cannot guarantee** the color accuracy or quality — photo labs and printers vary a lot.

For the **best quality**, I recommend ordering prints through me & my professional lab, where the editing is calibrated to match perfectly. This ensures accurate colors, longevity, and the best final product you can get.
